ROOTS

It all began in the South, in Puglia, in the fertile land of Manduria, with its centuries-old vineyards, stone walls and historic masseria farmhouses. This is where it all started, the story of a grand vision and a unique grape variety: Primitivo. It is also the story of a great family of winemakers. Today, the third and fourth generations of the Varvaglione family produce wines using innovation and tradition, as they write the new pages of a story embracing the past, present and future.
